Role: Assistant.

- Network maintenance tasks, LAN cabling and configuration.

Specific skills

➤ Operating systems

Windows advanced.

Linux:

Installation, configuration and services administration. Familiar to command line and basic bash-scripting. Experience with Debian and RedHat based distributions.

➤ **Networking**

TCP/IP.

Experience with cabling and configuration tasks. LAN and VPN administration and configuration.

➤ **Development**

Swift

3 years experience developing with Swift 3 / 4 on Mac environments with Xcode.

- ➔ CocoaPods.
- ➔ Autolayout.
- ➔ Animations.
- ➔ WebView.
- ➔ Realm.
- ➔ Facebook integration.

Currently working with this technology.

PHP

10 years experience with PHP 5 / PHP 7 on Linux environments, using different MVC frameworks and OOP.

Development Frameworks and tools:

- ✓ **Laravel 5**
- ✓ **Phpactiverrecord (ORM for PHP)**
- ✓ **Symfony**
- ✓ **Doctrine**
- ✓ **CodeIgniter**
- ✓ **MySQL**
- ✓ **DB tools: PhpMyAdmin, Postgres PgAdmin 3, DBVis.**

ANDROID

2 years experience developing for Android 2 to 4. Experience developing location aware apps. Integration with Restful APIs, Google play services and maps integration.

- Location APIs.
- Preferences APIs.
- Local storage with sqlite.
- Facebook and Twitter integration.
- Built in features (camera, mailing, GPS, pinch zoom, etc.).

JAVA

Development experience with **J2EE frameworks**:

1. **Struts and JSP** for the view layer,
2. **Spring** for dependency injection and transaction handling logic,
3. **Hibernate and JDBC** for persistence.

Experience developing standalone application with **J2SE + Swing**.

IDEs and tools:

- ✓ **Eclipse, Netbeans, JDeveloper, IntelliJ IDEA**
- ✓ Application servers: **Tomcat 5.5, Jboss 4, IBM WebSphere 5 y 6**.
- ✓ Jasper reports: **IReport**.

JavaScript and AJAX.

Intermediate

Versioning

GIT, SVN.

Project management tools

- Redmine,
- JIRA,
- Project Office,
- CodeBase,
- Trello.

Python

Basic experience development with Python and SQLite.

➤ *Databases*

SQL advanced.

Experience developing with **MySQL, Oracle, Postgres, Informix e IBM DB2.**

Tools and managers: **DBVisualizer, SQL Workbench, SLQ* Plus, PgAdmin.**

Official courses and seminars

2017. “Web applications development with HTML5, Angular JS and NodeJS”.

UTN-FRSF (Argentina).

2012. “Android apps development”. Capacitación IT (Argentina).

2011. “Android Bootcamp”. An introduction to ANDROID. UNL FICH (Argentina).

2009. Seminars on Leadership, Negotiation and Effective Communication by TOP GROUP and DeltaNet Consulting (Argentina).

2007. Seminar on Team work - NEORIS and DOOR Training & Consulting (Argentina).

2006. Python and SQLite. Arcore S.A (Argentina).

2006. “Emerging communication technologies Seminar” Telecom (Argentina).

2005. “Firewalls types and architectures” Telecom (Argentina).

2004. “Legal software and digital signature” by APPEI (Argentina).

2004. CISCO N.O.S. “Network operating systems”. Certification by CISCO SYSTEMS (Argentina).

2004. PHP and MySQL. Arcore S.A (Argentina).

2003. “GNU-Linux 2” Universidad Nacional del Litoral (Argentina).

2002. “Web Services Seminar” UTN-FRSF (Argentina).

2001. “GNU-Linux 1” UNL-Facultad de Bioquímica (Argentina).
